

Ava is a digital health company with offices in Zurich, San Francisco, Belgrade and Makati that aims to advance women's reproductive health by bringing together artificial intelligence and clinical research. Our wearable device, smart app and proprietary predictive algorithms empower women by giving them unique clinically researched insights and personalized data about their menstrual cycle, fertile window, and pregnancy delivered in a way that's convenient and non-invasive. Ava was voted Best of Baby Tech at CES 2017, named a Women's Health "Editors' Choice" product and has been honoured as the best Swiss startup in 2017 and 2018. Our current key markets include USA, Germany, Switzerland and UK.

Would you like to join us on our challenging adventure? To strengthen our team, we are looking for a:

Clinical Research Scientist (60-100%)

Location: Zurich, Switzerland

Note: this joint job offer with the University Hospital of Zurich is limited to March 2023

Responsibilities:

- Lead and manage large clinical trials (e.g. trial design, statistical analysis plan, clinical documentation, CRO appraisal and selection, recruitment planning, monitoring, close out, etc.)
- Analysis and interpretation of complex real-world data
- Drive clinical development deliverables (e.g., CEP, CIP, CER etc.)
- Represent Ava globally in scientific events and conferences
- Synthesize scientific knowledge for internal and external use (e.g. marketing, regulatory filings, peer-reviewed journals)

About you:

PhD or M.Sc. degree in life sciences, medicine or epidemiology **and 2+ years' work experience in the clinical or medical field**, more if you don't hold a PhD

Relevant experience and skills

- Prior experience in study coordination and management of Phase III-IV clinical trials and in leading clinical research projects in collaboration with CROs
- Experience in managing clinical data sets with tools such as EDC including ePRO and familiarity with clinical trial software (e.g., CTMS, eTMF, IWRS)
- Good general statistical and quantitative understanding in the clinical or medical field
- Experience in writing clinical regulatory documentations and submissions to health authorities
- Track record of peer-reviewed publications in medical journals
- Experience in establishing clinical quality management systems (e.g., SOPs, FOs, WI writing) is an advantage
- Prior exposure to the medical devices or software as medical devices industry and to women's health, fertility or endocrinology is an asset
- Knowledge of local Swiss and German clinical trial regulation
- Fluency in German and English with proven writing skills (e.g., previous successful submission or papers)
- Swiss or EU/EFTA work permit

Would you like to contribute to a highly motivated team, with a lot of space for your own initiatives? If yes, please apply online or send your complete application to recruiting@avawomen.com.

We appreciate that you share our excitement for Ava. Please be aware that only fully documented applications (CV, a 150 max words motivation letter) can be considered.

Ava – Revolutionizing women's health

Michael Blaivas, Chief Medical Officer

Should you not hear back from us within 3 weeks your application has unfortunately not been successful for the respective role.
